Description	Features	Benefits
Dry Flow RT31-270	<ul style="list-style-type: none"><li>• High density/Firm feel</li><li>• High porosity</li><li>• High tear and tensile strength</li><li>• Superior performance in wet/humid conditions</li><li>• Fast drying time</li><li>• 5 year warranty</li></ul>	<ul style="list-style-type: none"><li>• Ideal for heavy wear and tear and where a greater need of durability is required</li><li>• Superior drying time and high suitability for outdoor use</li><li>• Will suit varied upholstery applications</li><li>• Cushions retain maximum amount of shape and feel even under extreme conditions</li><li>• Foam cushions return to original feel once dried after contact with moisture</li><li>• For confidence and peace of mind</li></ul>

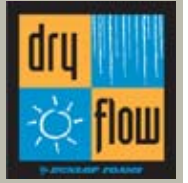

*For effective use and warranty guarantee, outdoor acrylic fabrics must be used on all sides of the cushions/ mattresses so that the foam is able to dry effectively (e.g. Sunbrella material is suitable). Foam can be cut to various sizes however, minimum thickness of 25mm is a warranty condition. For best results rinse with cold water (no chemicals to be used in cleaning process), allow to dry in shade, air regularly.*
